## **2005-2009:**

Holding educational seminars for interior design, education, color design, etc. in the Louisville metro area.

## **2011**

I semi-retired and moved to Florida where I had a second home. I then decided to stay here and make it my permanent residence. I chose the Evergreen Club, with its large lots, unique homes, and amenities that this community had to offer. Chose Palm City, over larger cities, because of the quiet charm and tranquility. I found the people here to be much like Louisville with Southern, friendly charm.

I also have a background in architecture landscaping design and with hobbies such as gardening and cooking; this was the perfect place. I also do a lot of volunteer work from the Stuart Garden Club and on the board of the Arts Council of Martin County. I have chaired many events including the Marties Awards of Martin County and ArtsFest Stuart. I have been a front runner for the arts in Martin County and will continue to do with fundraising endeavors and participating on the gallery committee. I held the position of Treasurer for the Glen Oaks Homeowners Association from 2004 to 2009.

There are many things I hope to contribute to our development with my design background. I feel I can help to improve our community hope to be a viable member of the Evergreen Board of Directors.
